1. The Amendment filed on July 17, 2006 has been entered.
2. Claims 1-42 are allowed.
3. The following is an examiner's statement of reasons for allowance: the broadest claim 1 is allowed due to the limitations:

“wherein the lock body (38) includes a front section (94), a rear section (100) forming the plurality of teeth (118) of the lock body (38), and an intermediate section (96) located between the front section (94) and the rear section (100) and forming opposed lateral slots (110); and

a *fixed* mounting bracket (20) extending into the slots (110) to interlock the lock body (38) and the mounting bracket (20).”
(Reference characters and emphasis added).

The closest prior art Malone (EP 0810 379 A2) or Reasoner'182 (US Patent No. 5,632,182) does not teach or suggest to use a *fixed* mounting bracket and extend it into the slots of the lock body as claimed. The other independent claims 10, 18, 26, 33, and 41 are allowed for similar reasons.

In summary, the case is allowed because Applicant's responses to the Office's requested information under 37 CFR 1.105 and Applicant's arguments on pages 12-17 of the above Amendment are convincing and persuasive as a matter of law.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

4. The drawings were received on July 17, 2006. These drawings are accepted by the Examiner.
